Low Retention Filter Tips

Universal Pipette Tips are certified free from DNase, RNase, Pyrogens and PCR inhibitors. Low Retention Filter tips would be ideally suited to highly sensitive PCR work. They are also free from lubricants and heavy metals. These Universal Pipette Tips have an innovative tip design for adaptability and compatibility with a wide range of pipettes from different manufacturers. They are also designed to have a very low force requirement for tip loading and tip ejection with pipettes.

Product Features:

- Low Retention
- Sterile
- Racked
- 10 µL to 1000 µL
- 96 tips/rack, 10 racks/pack
