

HYDROALCOHOLIC SOLUTION

Health Canada : NPN 80098502
HYDROALCOHOLIC GEL SOLUTION FOR RAPID HAND DISINFECTION
FORMULATED IN ACCORDANCE WITH THE WORLD HEALTH ORGANIZATION

The friction technique improves hand hygiene effectively, saving time and reducing the risk of intolerance (more effective and better tolerated than washing). It is particularly recommended in emergency situations, in case of impossible access to a washing station.

INSTRUCTIONS FOR USE:

Hygienic treatment of hands: Apply a dose of 4 mL on dry hands.
 Rub hands well for at least 45 seconds or until they are dry.

TECHNICAL CHARACTERISTICS:

Aspect: Gel
 Color: Colorless
 Shelf life: 2 years
 Active Ingredient: 75% Isopropyl Alcohol

ESBE ITEM ID	DESCRIPTION	PRICE
ORA-200GHA0025	Hydroalcoholic 250 mL bottle solution	\$11.50
ORA-200GHA0050	Hydroalcoholic 500 mL bottle solution	\$19.00
