VIP ECO

Natural Refrigerants -86°C Ultra-Low Temperature Freezer

528 L / 729 L

Cost-saving and environmentally friendly sample storage within an optimal footprint.

VIP ECO -86°C Upright Freezer provides maximum sample storage capacity within an optimum footprint. When combined with natural refrigerants to minimise energy consumption, environmental impact is reduced.

Energy efficient performance

Natural refrigerants, compressors and integrated electronics combine to lower operating costs by up to 30%*. Freezer operation is managed by effectively balancing temperature performance and energy management.

* Compared to conventional models.
Power source: 230V/240V 50Hz, AT 30°C

Flexible shelf layout

The inner space offers flexible storage, allowing either three or four shelves* and chamber bottom to be used. Also, an inner door with four or five small doors (optional) is available.

* Three shelves equipped as standard.

Reliable controllability and data log function

Large colour LCD touchpanel is accurately controlled even with a gloved hand, while the USB port makes transferring logged data of product's operational status to a PC convenient.
