

## Now Available Through ESBE

## Express 2 Centrifuge

High-quality serum or plasma samples in only two minutes

ESBE Item ID: HEM-STSSX2

## Express 3 Centrifuge

Achieve fast turnaround time and greater productivity

ESBE Item ID: HEM-STSSX3

## Express 4 Centrifuge

Achieve gel separation in only three minutes ESBE Item ID: HEM-STSSH4

## Cytofuge 2 Cytocentrifuge

A quiet and compact cytocentrifuge system

ESBE Item ID: HEM-STCF02

## MP Centrifuge

Blood, urine, hematocrits and other routine spins in two minutes or less

ESBE Item ID: HEM-STSSMP

Quality Sample Separations to Meet Growing Demand

The StatSpin family of high-speed tabletop centrifuges provides quality sample separation to meet the demand for rapid test turnaround time, delivering operational efficiency and staff satisfaction for your laboratory at a lower cost.

## Experience rapid turnaround time and workflow efficiencies

Deliver high g-forces and provide two- to five-minute STAT sample processing for gel or non-gel tubes

Enhance workflow to achieve faster results and improve turnaround times for Emergency Department and other critical samples

## **Enhance staff satisfaction**

Process samples on quiet tabletop centrifuges with simple operation and minimal maintenance requirements

Free your staff from spending unproductive time waiting for sample separation on a conventional centrifuge

## **ESBE Service**

We provide full service offering for the Hemocue StatSpin® Line of Clinical Benchtop Centrifugation Solutions

Full Suite of In-house and On-site Services. Licensed and ISO certified service provider.

## StatSpin Express 2 Centrifuge

#### High Productivity. Lower Cost.

The StatSpin Express 2 primary tube centrifuge prepares highquality plasma or serum samples in only two minutes. Meet rapid test turnaround requirements without a major investment in equipment or a disruption in your laboratory routine.

#### ORDERING INFORMATION:

StatSpin Express 2 Centrifuge for 100-240 V, 50/60 Hz Includes 4-place rotor (RTX4), universal power supply, removable chamber liner, four 5 mL inserts and North American power cord.

#### ESBE Item ID: HEM-STSSX2

View Brochure

Place it next to any of your STAT analyzers and serum or plasma is ready in just minutes. The Statspin Express 3 primary tube centrifuge can spin eight tubes up to 10mL. The centrifuge provides highquality plasma or serum in two to five minutes.

#### ORDERING INFORMATION:

StatSpin Express 3 Centrifuge for 100-240 V, 50/60 Hz. Includes 8-place rotor, removable bowl liner, eight 5 mL inserts and power cord.

#### A quiet and compact cytocentrifuge system.

The StatSpin Cytofuge 2 is a personal cytocentrifuge that costs thousands of dollars less but provides the same high-quality sample preparations as more expensive systems. Its simple, understandable controls and snap-seal filter concentrators make operation easier than ever before.

#### **ORDERING INFORMATION:**

StatSpin Express 2 Centrifuge for 100-240 V, 50/60 Hz Includes 4-place rotor (RTX4), universal power supply, removable chamber liner, four 5 mL inserts and North American power cord.

#### Flexible solutions. Ready in two minutes.

The StatSpin MP centrifuge is used for centrifuging microhematocrit tubes for packed cell volume determination, as well as rapid separation of whole blood and preparation of urine sediment for microscopic analysis. Quality serum or plasma separations takes as little as 30 seconds and no more than two minutes.

#### **ORDERING INFORMATION:**

StatSpin Express 2 Centrifuge for 100-240 V, 50/60 Hz Includes 4-place rotor (RTX4), universal power supply, removable chamber liner, four 5 mL inserts and North American power cord.
